Spam      First the Committee has no intention of issuing a report on the Gunn proposals. Although I commented earlier on the fact that the Waldman proposal is more favorable to the town, I realize additional negotiations will take place and the final decision will rest on the results of these efforts.

Trash      Second, I want to make it clear that we the Committee support the movement of the Gunn property and its repurposing especially for below market retail.

Third, as I now understand that the zoning changes contemplated are and will only effect the plat that the relocated property will stand, and that there is no impact to the zoning on the remainder of the Baldwin site, there is no concern to any effect our efforts to develop a Master Plan for downtown.

Project and the proposals should be viewed as a stand alone, and in our view a positive effect on our downtown, and a decision made based upon the facts and the analysis that is in process.
